

Covenant Classical School
English 11 Summer Reading Assignment

Your assigned summer reading is Harper Lee's *To Kill a Mockingbird*. This book is a fun read and rich in depth.

After reading the book, do the following assignment:

Write a 1-page (single spaced, 12-pt font) response describing how one character grows in (or loses) a particular virtue through the novel. Consider: what does this show about the character? What does it show about humanity? How might you have reacted? *Cite concrete examples from the story* to support how the virtue is developed.

This paper is a *response*-- not thesis or research. You may use the first person, but take care that your paper is grammatically correct and retains an academic tone—you still need an introduction, body, and conclusion.

Have a wonderful summer, and I look forward to seeing you all again in the fall!

Mrs. Leland
